

Thank You Members!

From Your Negotiating Committee

The last week of negotiations, you had the shop really rocking! With your daily marches on first and second shift, you got the attention of management at the bargaining table.

With the rally held on Friday, December 2nd outside the gate, we think the company knew they were in deep trouble. You wanted a fair and equitable contract that would ensure job security, insurance and pensions.

We wish we could have maintained the pension plan for those sisters and brothers who will come after December 31st of this year. But we were unable to secure that.

While we may not have gotten all we would have liked, we managed to walk away with a contract we can live with. One of the most significant changes was the change in the expiration date to May 1, 2022.

The overwhelming support from you was deeply appreciated and felt at the table. From the Negotiating Committee and the officers of Local 700,

WE THANK YOU!
