## Negotiations Day 9 Update

---

We are down to the final 2 days of negotiations! On Wednesday we were able to finalize language that addresses our health care and dental coverage. The details on these changes will be communicated out on Sunday as part of the overall contract presentation. We now need to focus on the areas that are critical to the membership; job security, retirement security, wages and work/life balance needs (improved paid time off). Bottom line, we have a long ways to go and a very short time to get there. Your committee is focused and we are inspired by your tenacity in the shop! Be loud and let your voices be heard!! Keep the pressure on.

Included is a flyer for the shop: <https://tapme.ws/41czSQ>
