0005 Monthly Report

First VEHS ergonomics training of 2022. We have had VEHS ergonomics training the week of March 9th. This training consisted of bargaining unit members, salaried employees and yellow badge contractors working together to prevent ergonomic injuries for our employees. Instructors jointly provided by Union and company representatives, held training in the Auditorium March 10th through the 13th. I would like to thank the following instructors, Ashley Dawson, Dawn Mele, Teesha Grant, Steve Smith, Joe Durette, Kathleen Gilligan and Therese Hervieux for stepping up and committing to do the training.

We are looking to have another class in September. If you wish to joint a VEHS team please se e a Union Safety representative.

Injured at work? What should you do?

1. Emergency Call ext-5111 or call 860-344-5111,
2. Tell your supervisor as soon as possible
3. Talking with medical be short and concise about injury. Do not elaborate.
4. Do not tell them what you do out of work. Not relevant.
5. Make sure a Union Safety Rep. is at the injury investigation. You are allowed to speak with them privately.
6. Ask the Union Safety Rep on how to file a Workers Comp Form 30C.
7. Check your e-mail to see if you received a set of documents explaining the Workers Compensation Process from the Union.
8. If the company forces you to make a statement, make it under protest and call a Union Safety representative.

OSHA compliant EH&S training classes are required to perform your job. (i.e. Machine guarding, LOTO, Fall Protection, PPE, Confined Space, Employees Role in Emergencies, Hoist and Crane & PIV) If you are overdue for this training you need to tell your supervisor immediately and inform them you can not perform the work until I have completed the training. This includes OJT. This is for the specific training, Cardinal Rule training does not cover you for the specific training. Do not sign training unless the specific training was given to you. We have had supervisors take employees into the office and had them sign the training without giving you the training. **Do not sign anything if you didn't receive your training! You could be held accountable.**

Respectively submitted Chief Union Safety Representative Paul Dickes.

RIDII Program Rewards Problems. The company has changed the way we receive the awards and gifts from the company with the new RStars program. We are trying to work thru the issues of getting the monthly RIDII winners their money. Please be patient.

Sisters and Brothers we are down 3 Union Safety representatives for the Middletown site. If you have a EH&S issues and your supervisor doesn't respond to your issue please call me at 860-614-0825

Do you think EH&S training is a JOKE? Pratt & Whitney surely does. Why am I saying this. The company requires you to take the Personal Choice training with over 34 Salary 43 hourly overdue and EH&S Cardinal Rule training individuals overdue 159 hourly and 37 salary as of 5/31/22.

We have over 950 class requirements overdue for compliance training to perform your job safely. This training is required to perform your job and the company is not addressing the real issues in training. There are members are out in the shop performing jobs with overdue or no PIV license, Machine Guarding , Hoist and Rigging, Respirator Training, Blood-borne Pathogen, Electrical Safe Work Practices, LOTO, Fall Protection to name a few. **If you are overdue or do not have training you cannot perform the work until you are trained.** They put a requirement for fluff classes but don't require you to take compliance training.

As of 6/6/22 RTX has stated masks are still required in MT. The numbers are falling in CT hopefully we can be out of masks in the near future. The company evaluates the mask requirements every Thursday night / Friday morning. May 31st numbers are High but are falling for the daily trend numbers are.
